))

Amendment to Consent Agreement and Final Order

Complainant, the Director of the Air and Radiation Division, United States Environmental Protection Agency, Region 5 (EPA), and Respondent EP Graphics' Berne, Indiana entered into a Consent Agreement to resolve this administrative action brought by U.S. EPA pursuant to Section 113(d) of the Clean Air Act, 42 U.S.C. § 7413(d). The Consent Agreement and Final Order (CAFO) was filed with the Regional Hearing Clerk on September 27, 1999.

Complainant and Respondent hereby agree to amend the following paragraphs of the CAFO to read as follows:

Supplemental Environmental Project

14. EP Graphics shall complete a supplemental environmental project (SEP) designed to protect the environment by removing the solvent based coating system currently used on press #66, discontinuing its use of press #66 for coating operations, installing a solids-based ultra-violet system on press #62, and thereafter using only press #62 for coating operations. This

will result in a 90% reduction in VOC emissions from Respondent's coating operations.

15. Specifically, on or before May 31, 2000, E. P. Graphics shall remove the coating hardware which is currently on press #66 at it's Berne, Indiana facility and will install a UV Coater on press #62.

17. EP Graphics shall continuously use or operate the UV Coater on press #62, for all press runs requiring coating, for at least 5 years following its installation. No coating operations will be conducted on press #66 during this 5 year time period.

25. On or before June 30, 2001, and on or before June 30th of each of the following four years, EP Graphics shall submit to EPA a report indicating the total quantity of UV coating used for press #62 during the previous year and also the VOC content of that coating.
